Press Release

Rigaku shows latest Crystallography Instruments at First Russian Crystallographic Congress

November 21, 2016 – Moscow, Russia. [Rigaku Corporation](#) is pleased to announce its attendance at the [First Russian Crystallographic Congress](#) in Moscow, Russia. The event takes place from Monday, November 21, to Saturday, November 26, 2016 at the Moscow Exhibition Center, Pavilion № 75. Rigaku will be exhibiting its advanced lines of X-ray diffraction instrumentation.

The exhibit showcases the latest in small molecule and protein crystallography instrumentation as well as general purpose XRD and SAXS diffractometers. Rigaku also offers instrumentation and software for macromolecular and chemical crystallography, X-ray fluorescence, general purpose X-ray diffraction and small angle X-ray scattering.

About Rigaku

Since its inception in Japan in 1951, Rigaku has been at the forefront of analytical and industrial instrumentation technology. Rigaku and its subsidiaries form a global group focused on life sciences and general purpose analytical instrumentation. With hundreds of major innovations to its credit, Rigaku and its subsidiary companies are world leaders in the fields of small molecule and protein crystallography, X-ray spectrometry and diffraction, X-ray optics, as well as semiconductor metrology. Rigaku employs over 1,400 people in the manufacture and support of its analytical equipment. Its products are in use in more than 70 countries – supporting research, development, and quality assurance activities. Throughout the world, Rigaku continuously promotes partnerships, dialog, and innovation within the global scientific and industrial community.
