The Kranse Institute offers an online SAT prep course with industry leading results in student score increases. Our proprietary method of teaching students unique strategies to conquer the SAT is affordable, easy to understand, and easily accessible by the student, anytime, anywhere. Why is ours better than other prep courses?

At Kranse Institute, we give students precisely the information they need to succeed, taught from their perspective and on their terms. Our SAT Prep Expert online course gives students what they need, when they need it – no more wasted time in weekend workshops. No long, boring tutoring sessions. Our lectures include important test taking tips, templates, learning methods, strategies for better retention and more. These short, easy-to-digest lectures are available online – where the student wants to study, when the student is ready, anytime over a period of 18 months.

Who is Shaan Patel?

Shaan Patel developed the Kranse Institute's SAT Prep Expert course using strategies he created while studying for the SAT himself. Shaan took his score from AVERAGE to PERFECT, then created his SAT prep course based on the strategies that worked incredibly well for him. He wanted to teach a course for students from the perspective of a student. And what a student! He appeared on ABC's Shark Tank, pitched his course to the Sharks, and won a \$250,000 investment from Mark Cuban.

Developed for students by a renowned perfect score student

The Kranse Institute SAT Prep Expert course was developed by Shaan Patel, a perfect score student and Shark Tank winner, thanks to Mark Cuban's investment. His proprietary method of studying for the SAT garnered him (and others) a perfect score on the SAT. Of course, not everyone who takes this course gets a perfect score, but Kranse Institute has seen the highest score increase in the industry when compared to other SAT prep courses.
