

MINIMIZE LIABILITY. MAXIMIZE VISIBILITY AND PROFITABILITY.

Created by Aedes Technologies, *VISISCREEN* screen door replacement and repair solution is an insect screen mesh product designed for all types of porch, patio, and deck screen doors. Its patented safety *density marker* is woven vertically into the screen door mesh. The marker remains “invisible” at safe distances but becomes apparent as you approach it, thus helping to prevent common accidents like screen door walk-throughs.

VISI-Marker
becomes visible as you
approach. Disappears
at a safe distance.

BENEFITS & FEATURES

- ☑ Remains invisible at safe distances, but becomes apparent as you approach it
- ☑ Less accidents reduces frequency of screen door repairs/replacements
- ☑ Patented safety marker is aligned vertically to support users at all heights and sizes
- ☑ Low maintenance; American made premium vinyl coated fiberglass
- ☑ Manufactured and warehoused in the USA
- ☑ For use in all existing and new screen doors
- ☑ Easy to install with instructions inside package and/or a QR code link to installation video on outside of package
- ☑ Available in both 3 & 4 foot width, 7-foot height oversized, trimmable kits; also available in 100, 300 & 600 foot length bulk rolls for rescreening

Replacement kits come in 3 and 4 foot widths by 7-foot height; easily trimmed to fit smaller openings.

Vendor supplied POP displays accommodate up to 20 polybag rolls.

Bulk mesh rolls for rescreening are available in both 3 and 4 foot widths and in 100, 300 and 600 foot lengths.

VISISCREEN is available in a 3-foot width with one visible marker and a 4-foot width with two visible markers. Below are recommended positioning options of the markers for both widths.

3' width roll
