

SOLUTIONS FOR K-12

Discover Video delivers solutions that help meet the unique needs of the K-12 school environment, from supporting the flipped classroom and BYOD to delivering video morning announcements and providing priority alerts to teacher and staff. K-12 schools use our solutions to deliver graduations, sports, and other live events on the Internet to family and friends.

SOLUTIONS FOR HIGHER-ED

Discover Video enables colleges and universities to capture their lectures and deliver them to students on campus, in dorms, or at home – allowing them to review materials and learn at their own pace. In addition, Discover Video solutions can be used to stream major events or provide school information via digital signage on campus.

SOLUTIONS FOR GOVERNMENT

Discover Video helps local, state, and federal government by providing the tools needed to stream video in real-time to audiences internally, shared between organizations, or to the public over the Internet. Our solution is ideal for delivering government meetings to constituents live or on-demand.

SOLUTIONS FOR CORPORATE

Discover Video enables companies to deliver corporate communications, product and compliance training, and more to everyone within in an organization. From the HQ, to the home office and even to the mobile devices of employees on the go, Discover Video improves communication.

SOLUTIONS FOR HEALTHCARE

Discover Video provides a solution that allows everyone in an organization to stay up-to-date, even remote locations, by allowing them watch live training or the recorded training on-demand when they can't be there in real-time. Our solutions are used for clinical assessment to help educate future medical professionals.

Discover Video LLC - 101 North Plains Industrial Road, Wallingford, CT 06492 USA - 1 (203) 626-5267

EDUCATE. COMMUNICATE. COLLABORATE.

STEP 1: STREAM & RECORD

Discover Video provides a variety of video encoders for live streaming and recording. They allow you to deliver video from smartphones, tablets, or computers using our high quality encoding software.

STREAMSIE®
App for smartphones, tablets, PCs, and Macs to record or stream live. Use Streamsie with internal cameras or connect to webcams or professional cameras with our adapters.

MANTIS®
Self-contained HD encoder for live HD streaming from cameras or other video source. Great for 24 x 7 applications with DEVOS or Arcus

ROVER*
Need a lightweight mobile streaming system? ROVER incorporates Streamsie encoder onto a powerful laptop computer with an HDMI adapter for capturing and streaming video and VGA.

SPIRIT*
Quiet operation makes this high performance desktop system ideal for permanent installations that require HD quality. Great for boardrooms, lecture halls, media centers, and TV studios.

NOMAD*
This portable system is perfect for users who need professional features and HD video streaming on the go. Built in keyboard, mouse, and screen.

MCE
Multi-Channel Encoder for delivering multiple video sources from one encoding platform. Ideal for internal cable TV distribution or 24x7 webcasting. (Up to 4 HD or 6 SD inputs)

*Available with HDMI, HDSDI, VGA, DVI, Composite inputs

STEP 2: MANAGE & DELIVER

Discover video provides easy-to-use and scalable products for managing and delivering your streaming video content to viewers across your own network or over the Internet. Easily combine these products to create a hybrid solution that will enable you to reach your audience anywhere in the world.

DEVOS™
This all-in-one media management and streaming server, installed on-premise or in the cloud, provides everything you need to deliver live and on-demand streaming content within your organization to virtually any viewing device. Includes Digital Signage and Priority Video Alert.

ARCUS
Discover Video's subscription-based online streaming service that delivers video over the Internet to viewer's computers and mobile devices. Perfect for delivering live events, 24x7 streaming, and Video on Demand.

DVT
The Discover Video Live Transcoder (DVT) provides real-time transcoding of live legacy streaming formats such as MPEG-2, Windows Media, and Flash, into live H.264 streams enabling these streams to be delivered to televisions, computers and mobile devices.

STEP 3: DISPLAY

The power of Discover Video is in its ability to cost effectively and efficiently deliver live and on-demand video to audiences wherever they are on almost any video enabled device.

PC/MAC
Live and on-demand video can be delivered from Discover Video's streaming solutions to computers on the local network or over the Internet without the need for special software.

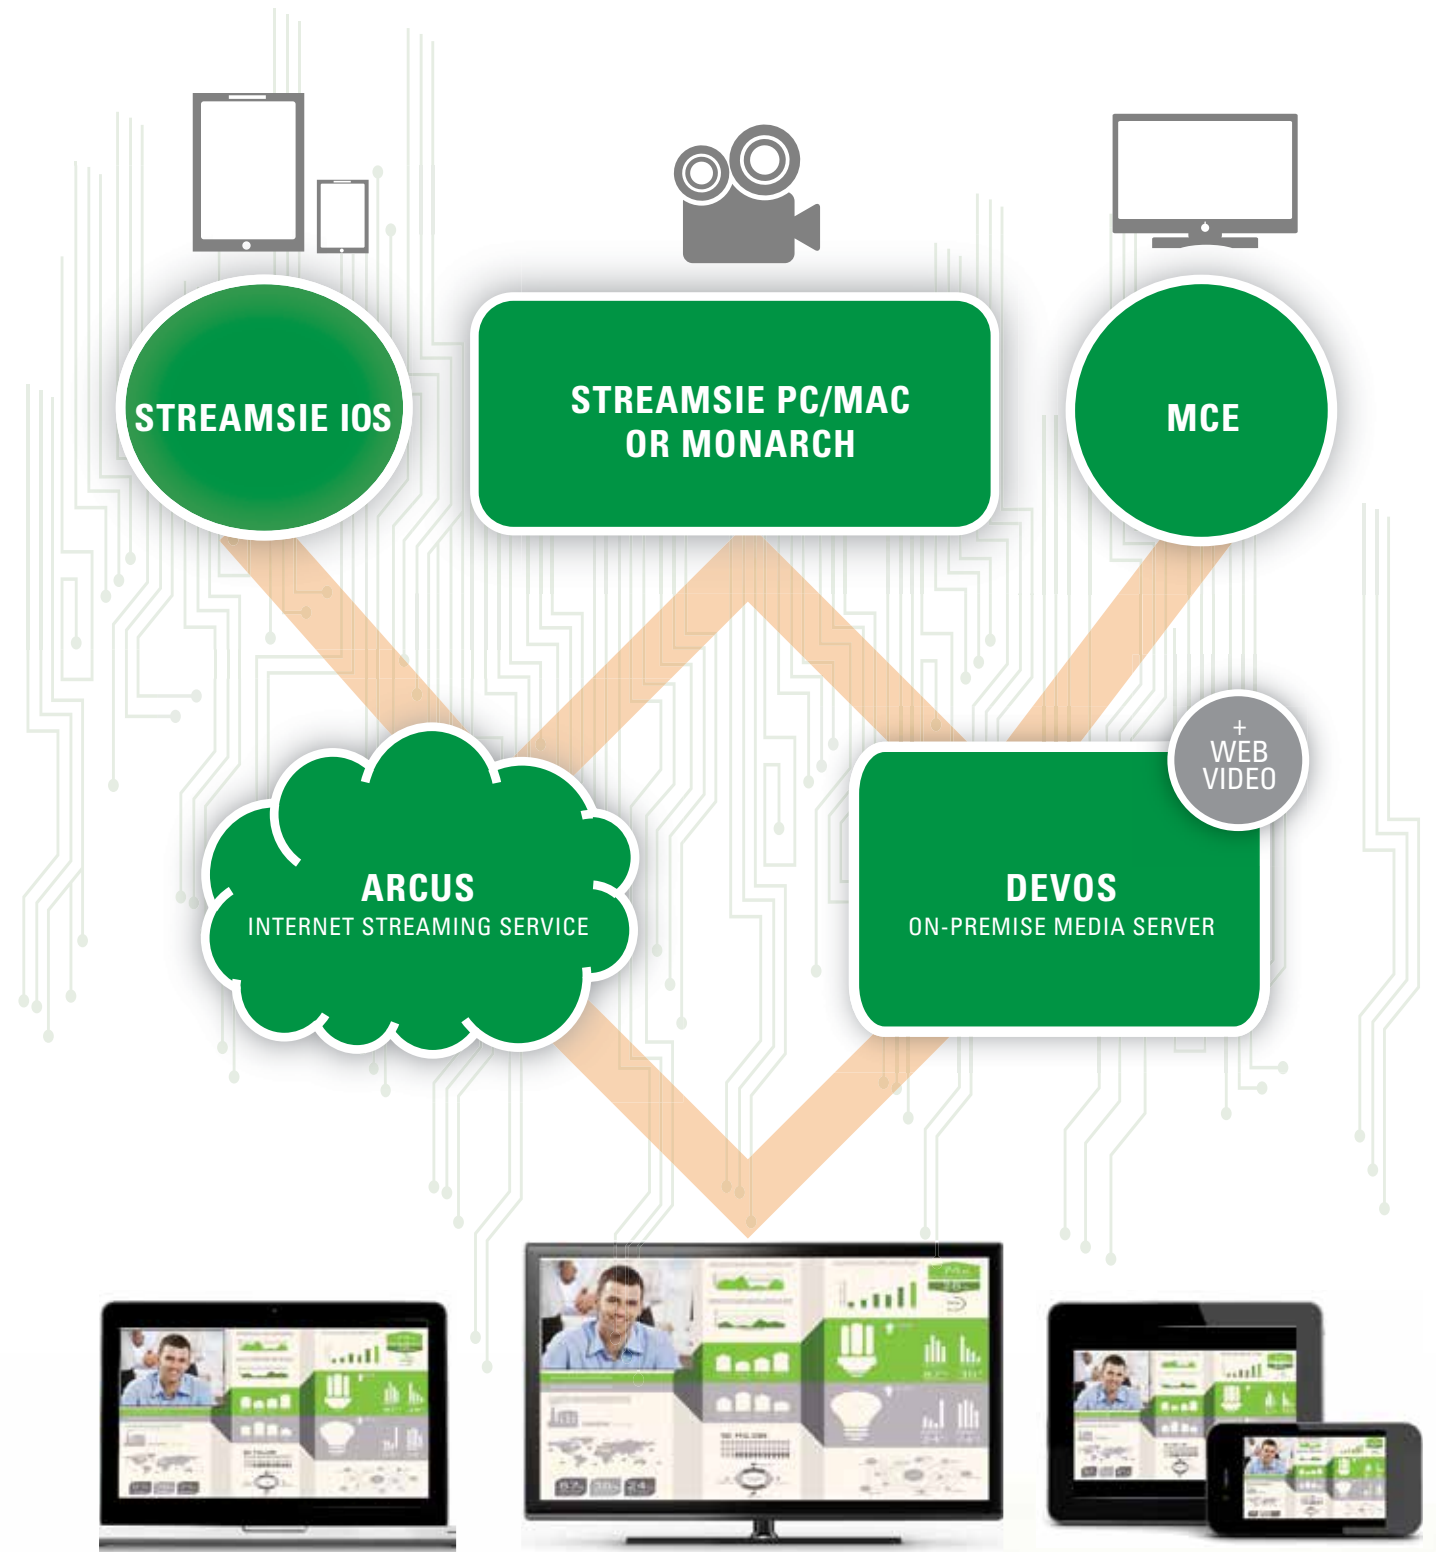

TELEVISION & PROJECTORS
Discover video enables any television or video projector to access and play live and on-demand video using our special add-on for the Roku Player.

MOBILE & TABLET
Easily stream live and on-demand video to Apple devices, such as iPhones® and iPads®, as well as to Android® tablets and smartphones.

DIGITAL SIGNAGE
Deliver Video, Images, Text, Webpages, or RSS. Use Samsung App, Roku, or DV Media Player to display signage.
