## **CUTTING-EDGE CRYOTHERAPY TREATMENT NOW AVAILABLE AT GREENWICH MEDICAL SPA IN WESTPORT, CT.**

**Westport, CT.** On April 1<sup>st</sup>, 2017, the new Greenwich Medical Spa location in Westport Connecticut will begin offering Cryotherapy treatments, a popular reparative and rejuvenating treatment that uses freezing cold temperatures to stimulate the body's metabolism, release endorphins and enhance circulation for tighter skin, boosted energy and total body slimming.

Submitting the body to sub-zero temperatures has long been a popular therapy for minimizing pain, reducing inflammation and helping to speed recovery from injury and surgery. The difference? Today's Cryotherapy delivers invigorating results for the whole body. By lowering the skin's surface temperature with cold blasts of sub-zero exposure in a walk-in cold chamber, the body's regulatory system is plunged into protective mode. Blood travels to essential organs and anti-inflammatory molecules; endorphins are released. Studies show that this can positively impact the body's circulatory system, energy system, and nervous system. The result? Cryotherapy may help support tissue damage, cell rejuvenation, reduce the signs of aging, improve sleep, fight depression and boost bodily repair and rejuvenation.

"Cryotherapy is the perfect choice for anyone who wants a quick treatment that delivers instant benefits they can feel", says Marria, Founder and Managing Partner at Greenwich Medical Spa. "From a lift in energy levels and mood to supporting weight loss, skin tightening, and recovery, it's a safe, natural option for all patients, both men and women".

Cryotherapy treatments last no longer than 2-3 minutes with no downtime. While each session is quick, the effects can last for days and can become permanent with repeated sessions.

To book a consultation at the new Westport location, please call (203-637-0662).  
To visit, stop by 645 Post Road E, Westport CT., 06880.

**Greenwich Medical Spa | There's a Younger You Inside**

*Since opening 11 years ago, Greenwich Medical Spa has become one of the most decorated beauty destinations in Connecticut that offers minimally invasive, non-surgical cosmetic and dermatological services including everything from Botox and dermal fillers to CoolSculpting and Ultherapy. Voted the best medical spa by Fairfield Weekly and Serendipity magazine, it has also been recognized as one of the top 2% of service providers in the United States for dermal fillers and Botox, in the top 2% of providers for CoolSculpting and in the top 1% of treatment facilities for Ultherapy in the country.*
