

## Rigaku to Attend 2017 German **Crystallographic Society Meeting**

Rigaku Corporation 9009 New Trails Drive The Woodlands Texas 77381 USA

Rigaku presents latest technology at 25th Annual Meeting of the German Crystallographic Society

March 24, 2017 - The Woodlands, Texas. Rigaku Corporation is pleased to announce its attendance at the 25th Annual Meeting of the German Crystallographic Society (DGK). The conference takes place Monday, March 27 through Thursday, March 30, 2017 in Karlsruhe, Germany at the Karlsruhe Institute for Technology (KIT).

All aspects of crystallography will be addressed at the meeting. The meeting will include 18 microsymposia, six plenary lectures and two poster sessions. This year's focus is on the structure-property relationship, especially for energy materials.

Rigaku will be exhibiting its lines of small molecule and protein crystallography systems. On March 28, an industrial symposium presented by Rigaku will take place. The symposium will cover the newest developments in small molecule and macromolecular crystallography, as well as the latest developments in CrysAlisPro data collection and processing crystallography software.

Rigaku XtaLAB Synergy single crystal X-ray diffractometer

## About Rigaku

Since its inception in Japan in 1951, Rigaku has been at the forefront of analytical and industrial instrumentation technology. Rigaku and its subsidiaries form a global group focused on generalpurpose analytical instrumentation and the life sciences. With hundreds of major innovations to their credit, Rigaku companies are world leaders in X-ray spectrometry, diffraction, and optics, as well as small molecule and protein crystallography and semiconductor metrology. Today, Rigaku employs over 1,400 people in the manufacturing and support of its analytical equipment, which is used in more than 90 countries around the world supporting research, development, and quality assurance activities. Throughout the world, Rigaku continuously promotes partnerships, dialog, and innovation within the global scientific and industrial communities.
