Seton Hall University Selects a Colorado Time Systems Video Display for Arthur E. Imperatore Natatorium

Loveland, CO—April 19, 2017— Seton Hall University in Orange, NJ has signed an agreement with Colorado Time Systems, a PlayCore company, to install a brand new 10mm LED video display at the Arthur E. Imperatore Natatorium this summer.

The 10mm video display will be added to the existing Colorado Time Systems timing and scoring solution at the Natatorium and will measure approximately 2.7m x 5.1m (8.9' x 16.7') [h x w]. The video display will be used to show scoring information, live video, video replays, and animations. The video display replaces an existing Colorado Time Systems flip-digit numeric scoreboard.

“We are excited to once again partner with Colorado Time Systems on the installation of a video display in our swimming & diving facility. The display will nicely complement our existing Colorado Time Systems components,” said Kevin Sponzo, Senior Associate Athletics Director for Facilities at Seton Hall.

“We’re excited about the look, feel, and functionality of our new video display, and we think it will enhance the experience of attending a Seton Hall swimming and diving meet,” added John Judge, Assistant Athletic Director, Development Seton Hall University Department of Athletics.
