Tele-Media Solutions Expands Internet Bandwidth Service via Indiana Fiber Network

Indianapolis, IN —April 20, 2017: Indiana Fiber Network, LLC (IFN), the leading Indiana statewide Network Service Provider, announces a significant bandwidth upgrade infrastructure service to Tele-Media Solutions. IFN is delivering Multi-Gigabit data rates as an upstream internet provider to Tele-Media Solutions. One of IFN's consortium member-owners, Tele-Media Solution's protect transport with 3GB Dual Access Internet access is now available in their service areas.

"This expansion is part of Tele-Media's strategy to improve our service offering, enabling our internet service to deliver the higher speeds our customers demand. The service is designed to be fully redundant and geographically diverse, and puts us in a position to more than adequately feed our new fiber to the home project slated to begin next year," said Mike Harian, Tele-Media Solutions' General Manager.

According to August Zehner, IFN Vice President of Sales and Marketing, today, consumers enjoy a dazzling array of communications choices. "Tele-Media Solutions' customers will directly benefit with more robust internet service and reliability from this infrastructure upgrade. It is great to see the proactive planning and implementation that occurred on this project," said Zehner.

Enabling Tele-Media Solutions as a member/owner is why IFN was initially formed. "IFN's mission is to provide innovative, tailored technology solutions to our Members and customers/partners in the most effective, reliable and economically sound method possible," said Kelly Dyer, IFN President and CEO.

About Tele-Media Solutions

Tele-Media Solutions is one of 8 telephone cooperatives and 35 independent telephone companies in Indiana. This Cooperative serves members in portions of Clark, Floyd, Scott and Washington Counties encompassing an exchange area of 120 square miles. Tele-Media Solutions offers High-Speed Internet and voice services. For more information, please visit Tele-Media's website at www.telemedia.coop or call 812-967-3171.

About Indiana Fiber Network, LLC (IFN)

IFN was formed in March of 2002. IFN's ownership is comprised of twenty local exchange telephone companies throughout the state. IFN offers data center, Internet backbone and data transport services over state-of-the-art Ethernet, CDWM, DWDM and SONET fiber networks, with service in the state of Indiana and throughout the US via a network of national carrier partners. Follow IFN on Twitter at www.twitter.com/indianafiber. For more information, please visit IFN's website at www.ifncom.net or call (317) 280-4636.
