Rigaku to exhibit at the 2017 Annual Meeting of the American Crystallographic Association

Rigaku Oxford Diffraction is an Emerald Sponsor of the 67th ACA Annual Meeting in New Orleans

April 24, 2017 – The Woodlands, Texas. [Rigaku Oxford Diffraction](#) (ROD) is pleased to announce its sponsorship of the 67th Annual Meeting of the American Crystallographic Association ([ACA](#)), to be held May 26-30 in New Orleans, LA, at the Hyatt Regency Hotel. ROD will present their [Macromolecular](#) and [Small molecule](#) crystallography instruments at booths 317 and 319.

Scientific lectures and poster sessions, workshops and events will be presented in conjunction with the largest crystallographic exhibit show in North America. The scientific program will feature a number of workshops sponsored by Rigaku, including sessions covering crystallography best practices for challenging diffraction data and diffraction images from known X-ray structures. A workshop covering data processing theory and practice featuring Rigaku [CrysAlis^{Pro}](#), data collection software for small molecule and protein crystallography will also take place.

More information about single crystal X-ray diffraction solutions from Rigaku is available at www.rigaku-oxford.com

About Rigaku Oxford Diffraction (ROD)

ROD was formed as the global single crystal business unit of Rigaku Corporation after the acquisition of the former Oxford Diffraction organization from Agilent Technologies in 2015. ROD is a leader in the field of single crystal analysis, both in the field of chemical crystallography as well as well as macromolecular crystallography. Formed in 1951, Rigaku Corporation is a leading analytical instrumentation company based out of Tokyo, Japan.
