

WaterFit Bike

CYCLE IN THE WATER

The newest trend in aquatic fitness is aquatic cycling, and this European-influenced, versatile aquatic bicycle uses water as a natural form of resistance for an effective, low-impact workout that is perfect for rehabilitation patients or water enthusiasts. The bicycle itself is lightweight and comes in a variety of colors. With adjustable handle bars and seat, riders can pedal in exercise, standing, or race mode. **WaterFit** your way into shape with an intense, yet therapeutic workout.

Standard color is bright blue (as shown).
Other color options:

red

bright blue

orange

pink

royal blue

yellow

green

“I felt resistance against all of my leg muscles and also my core. It was so easy to get a really good workout without getting overheated.”

Key Features:

- Heavy duty polypropylene construction
- Lightweight 30.9 lbs (14.0kg)
- Rear wheels for ease of entry into the pool
- Removable base for compact storage
- Used in depths from 3.9 - 5.5 ft (1.2m - 1.7m)
- Adjustable seat and handle bars
