## **Rowan University Selects a Colorado Time Systems Video Display for Swimming & Diving**

Loveland, CO— May 24, 2017— Rowan University in Glassboro, NJ has signed an agreement with Colorado Time Systems, a PlayCore company, to install a brand new 12mm SMD LED video display at the Recreation Center Natatorium this summer.

The 12mm SMD video display will be added to the existing Colorado Time Systems timing and scoring solution at the facility and will measure approximately 2.1m x 3.8m (6.9' x 12.5') [h x w]. The video display will be used to show scoring information, live video, video replays, and animations.

“We chose the Colorado Time Systems video system because of the additional features it has to offer,” said Brad Bowser, Head Swimming and Diving Coach. “The fans and spectators are going to enjoy its capabilities. I’m most excited about the display’s latest technology and functions for our sport. It will provide a better atmosphere for the meets. We will be able to show videos prior and the times are easier to read.”

“We’re pleased to continue our partnership with Rowan University,” said Mark Polansky, East Coast & Pacific NW Sales Manager. “The video display will definitely take the facility to the next level.”
