

KMxASP - Hosted Learning, Performance & Talent Management

KMx is an Advanced Distributed Learning Platform that provides integrated eLearning development, learning management, performance management, learning content management and virtual classroom technologies in one easy to use solution. KMxASP provides an instance of KMx fully hosted as a Software as a Service (SaaS) solution.

KMxASP is designed to meet the career development needs of staff, education of partners and suppliers, agents, customers and support personnel. Online, offline or classroom courses can consist of any combination of eLearning, self-study materials and instructor-led activities.

KMxASP includes the following additional features:

- Collaboration tools and message boards
- Custom branding and graphics
- Reporting & gap analysis tools
- Easy to use administrative interfaces
- Complete assessment and survey engine
- KMxMobile device interface

The user interface provides easy customization and branding and is available with language packs to provide localization and multilingual distribution.

KMxASP - Pricing

KMxASP provides an initial acquisition cost that is thousands of dollars less than our competitors. With KMxASP, there are no per-user fees, no maintenance fees and no upgrade fees. Our standards-based approach significantly lowers the cost of integration with Single Sign-On (SSO), eCommerce and Human Resources Information Systems (HRIS). New startup sites can easily be launched in a single day. We also offer professional and technical services to migrate existing content and training program records to KMxASP. Our staff can assist with all aspects of your learning, performance and talent management program, including course development, custom branding and consulting services.

User Based Agreements	Monthly Fee
First 1,000 Users (1 year term with automatic renewal)	\$1,000

- 98% availability SLA

The screenshot shows the 'KMx Version 9.0 Exam Interface' with a question: '1. In KMxLive V5 shifting the students to a full-screen instructor console view is accomplished using which of the following methods?'. There are four radio button options: 'Asking the student to select full-screen from their workstations', 'Shifting to full-screen view is not a feature of KMxLive V5', 'Pressing the F11 key on the instructor console', and 'Pressing the Full Screen button on the instructor console'. The third option is selected. The interface includes a search bar, navigation arrows, and a 'Item 1 of 5' indicator.
