

## **Pioneering Patent Law Firm, Bold IP, Celebrates 25th Of Counsel Partnership in 2017**

The National, Virtual-office, Specialty law firm, Bold IP has been growing its geographic reach to serve more inventors and businesses through its growing Of Counsel Network of Host Firms this year.

**Bold IP Law Firm** (SEATTLE, WA) partners with General Practice and Transactional Business Attorneys and Firms around the nation to help them add the powerful practice area of **Patent Law** to their repertoire. This win-win arrangement allows the host law firm to take on Patent Law cases for the first time, helping their current clients be fully served by keeping the intellectual property representation in-house. Up until now, these firms have had to simply refer out those types of cases – losing control over the subject and losing valuable connection with a client.

By keeping these clients in-house, Bold IP Host Firms are able to serve these new technology clients by helping them with a multitude of transactional and business representation including entity formations, contract drafting, membership agreements, employment agreements, and the like.

Announcing two new Of Counsel Partnerships, who signed just this April, 2017:

**Palacios Law Firm** (SANTA ANA, CA) – Highly-talented Principal Attorney, Elio Palacios, has a multi-faceted transactional and litigation practice covering the entire state of California. *“We are excited about bringing in the expertise of Bold IP,”* said Elio Palacios Jr., founding attorney of Palacios Law Office. *“This will be a great way to better service our clients’ intellectual property needs.”*

**Aharoni Business Law** (OAKLAND, CA) – Innovative Principal Attorney, Galia Aharoni leads a team of passionate attorneys serving small businesses in the greater Bay area. *“Working with Bold IP feels like opening up a new door in my legal practice”* said Galia, *“I’m excited for the opportunity to provide an even greater depth of service for my clients.”*

According to a Bold IP Law Firm Official, they hope to grow their Of Counsel Network to over 100 firms by the end of 2017. If you are an attorney and would like to learn how you might be a part of this network, call **1-800-849-1913** or email [info@boldip.com](mailto:info@boldip.com).
