Global Director of DUNMORE Aerospace to Speak at Space Tech Expo USA

DUNMORE Aerospace Global Director, Art Mallett Jr. to speak at Space Tech Expo USA on Wednesday, May 24, 2017.

Bristol, PA, May, 23, 2017 - Art Mallett Jr., Global Director for DUNMORE Aerospace will be presenting on how multi-layer insulation systems are changing the aerospace industry. As part of the Space Tech Expo USA Open Tech Forum, Mallett will speak about how MLI materials are being used today and the technical challenges facing the industry. Mallett will also discuss the next generation of lightweight materials and MLI insulation films being developed to meet the future needs of the market. Mallett will highlight new lightweight, smart textiles that will become the new standard for MLI films (<http://www.dunmore.com/products/multi-layer-films.html>).

Space Tech Expo USA brings together engineering experts and key decision makers in the B2B space industry. The conference will be attended by representatives across the supply chain for commercial, civil, and military aerospace. Space Tech Expo will spotlight new trends and technology advancements in the industry. Topics from additive manufacturing to thermal management solutions will be discussed throughout the 3 day conference.
