JustLegal Announces LawPay Integration

Technology platform adds online payment services to program that connects attorneys and clients and streamlines secure scheduling

AUSTIN, TEXAS 5/24/2017 - JustLegal, a platform connecting people with lawyers online, has announced a partnership with LawPay, the legal industry's leader in credit card processing.

The combined technology will enable attorneys to share their calendar availability to schedule consultations at a time that works best for clients, and to take payment for these and other meetings over the web with no concerns related to commingling earned and unearned fees.

"We are very excited to partner with the industry standard for payments, and more importantly pioneers in the digitization of legal transactions," said Willy Ogorzaly, CEO of JustLegal.

"LawPay's success demonstrates the industry's growing efforts to match evolving customer expectations, and validates technology's role in keeping transactions safe and compliant. At JustLegal we believe in the same market shift, to more law firms using technology."

Attorneys can sign up for both services: <https://justlegal.com/lawpay/>

ABOUT JUSTLEGAL

JustLegal is a web platform that enables clients to find attorneys, and attorneys to easily manage and fill their non-billable hours. Founded in Colorado in 2013, the platform has evolved to enable and simplify the process of finding professionals, while staying focused on the compliance, security, and privacy that are critical to the industry. JustLegal is now based in Austin, Texas as part of the Capital Factory accelerator program. For more information, go to <https://justlegal.com/> or twitter.com/gojustlegal

ABOUT LAWPAY

Trusted by more than 40,000 firms, recommended by 46 state bars, and the only payment solution offered through the ABA Advantage program, LawPay is the proven payment solution for attorneys looking to accept online credit card payments in their practice. Developed specifically for law firms, LawPay separates earned and unearned payments so that lawyers can always trust that their credit card transactions are handled correctly. And, with technology that exceeds Payment Card Industry Data Security Standards, attorneys can rest assured that their transactions are secure with LawPay.
