

iPatientCare incorporates Biannual Meeting iHEAR to acknowledge its Half Yearly Achievements and Plan for the Rest of 2017

iPatientCare celebrated its achievements of earning a 2016 Surescripts White Coat of Quality Award, getting selected as a nationwide CMS qualified MIPS Registry for year 2017 and many other recognitions during the Biannual meeting

Woodbridge, NJ, June 15, 2017 — [iPatientCare](#), a pioneer in cloud-based ambulatory EHR and Revenue Cycle Management services, held its biannual meeting “iPatientCare Half-yearly Engagements, Achievements, and Roadmap” (iHEAR), which was attended by its Directors, Investors, Value Added Resellers and other key stakeholders. A series of iHEAR meetings are organized twice a year, where iPatientCare’s key members and partners come face to face, discuss about their present engagements and achievements during the last six months, and prepare the roadmap for the upcoming six months and beyond.

One of the key achievements of the year 2017 is that iPatientCare is selected as Qualified Registry for MIPS by CMS for Year 2017. Eligible physicians/providers will be able to directly submit their data with help of iPatientCare’s MIPS reporting services. In addition, [MIPS Calculator](#), designed by iPatientCare facilitates physicians to calculate their MIPS score at any time.

Second major recognition received is by Surescripts. iPatientCare got rewarded with 2016 Surescripts White Coat of Quality Award. Surescripts’ White Coat acknowledges organizations that endorse the highest standards of quality in e-prescribing, which should consist of measurement and reporting of e-prescription content quality.

Additionally, one more feather was added into the cap of iPatientCare achievements when Silicon Review announced the name of iPatientCare among the [50 fastest growing companies in the United States to watch - Year 2016](#). iPatientCare’s dynamic growth in customer base is due to user friendly **EHR** and **practice management software** which delivers quick and intuitive solutions. iPatientCare’s undivided support for patient-centric solutions has resulted in enhanced quality of care, increased patient safety, reduced administrative overheads and gain in effectiveness and efficiencies of healthcare processes.

One another achievement was of participating and successfully exhibiting at [HIMSS Annual conference and Exhibition](#). This year at HIMSS17, iPatientCare highlighted its accomplishments in interoperability capabilities of its product suite that includes **Peer-to-Peer Portal**, **Provider Portal** and **Patient Portal** along with **Telemedicine** and **remote Patient Monitoring**.

Other big achievement came through [iPatientCare’s PQRS Registry for 2016](#); numerous physicians’ offices and eligible providers were able to report their quality data for year 2016 to CMS and avoid unnecessary payment adjustments. The experts at iPatientCare help Eligible Professionals (EP) and

Group Practice Reporting Organizations (GPRO) in selecting the accurate PQRS reporting method for serving their patients in best manner and improving the quality of care.

Moreover, iPatientCare has initiated a noble cause to educate the healthcare professionals with the [MACRA via eLearning Series](#) throughout the year 2017. This **eLearning series** will be available for all practices and all providers throughout the year.

[Kedar Mehta, Chief Technology Officer of iPatientCare](#), strongly said, "In order to provide the surety to our users that they are using the certified Ambulatory EHR, we have thrived to make our software a perfect fit with the standards defined by the Government regulatory and have gained many awards and recognitions namely Qualified Registry for MIPS for Year 2017, and Surescripts White Coat of Quality Award 2016."

About iPatientCare:

iPatientCare, Inc. is a privately held medical informatics company based at Woodbridge, New Jersey. The company's unified product suite includes ONC Certified Electronic Health/Medical Record and integrated Practice Management/Billing System, Patient Portal/PHR, Health Information Exchange (HIE), and Mobile Point-of-Care Solutions for both Ambulatory and Acute/Sub-acute market segments. iPatientCare has been recognized as a preferred MU partner by numerous Regional Extension Centers (REC), hospitals/health systems, and professional academies.

iPatientCare is also known for its Revenue Cycle Enhancement services that provides domestically outsourced, technology-enabled and process-driven solutions for patient access, denials management, HIM/billing and coding, and Lean Six Sigma dashboard-based analytics. iPatientCare has been helping healthcare providers dramatically reduce A/R days and improve collections rates, reduce billing costs, eliminate the burden of repeatable, high volume work on their internal teams, and plug gaps in staffing and internal bandwidth.
