SERVICES:

- Our design process assessment identifies areas for workflow and process improvement
- Our industry leading Application Consultants are here to help you, whether it's functionality, workflow, adoption or process improvements. We apply best practices that help organizations maximize their technology investment.

WE ARE 100% COMMITTED TO YOUR SUCCESS. BEING A LEADING MIDWEST COMPANY WITH BUILDING EXPERTISE, WE ARE EXCITED TO HELP. SIMPLY PUT, WE GET YOU.

What we offer.

MasterGraphics has been one of the Midwest's leading providers of technology, hardware and services for the AEC and Civil industries for over 65 years. We serve as your trusted advisor by helping our clients implement, design and use building solutions and technologies.

As an Autodesk Platinum Partner, and Authorized Training Center, we provide our clients access to the latest technology, services, and insights into industry best practices. Our consultative services enable our clients to streamline design processes throughout their entire project lifecycle process. Unlike many competitors, we take a personal approach, we make it our mission to understand your business challenges, goals and unique needs. Our specialists enjoy learning, formulating and introducing new processes that help organizations like you excel.

DESIGN

We understand the challenges you face and are here to help you navigate the complexity of building projects

- Revit Architecture MEP and Structure
- Infracore - geospatial and conceptual engineering BIM platform.
- Navisworks - integrate, review, and coordinate model data to gain control over project outcomes.
- Utilize point-cloud data in pre, during and post construction.
- Recap Pro - Reality Capture and 3D scanning
- Drones in Construction
- Project Collaboration

ADOPTION

- Autodesk Certified Training Center
- Master Certification Tracks
- Evolve 360 gives users access to unlimited classroom training
- Just in time online learning platform
