MVP Systems Software Expands Asia Pacific Support with New Offices in Australia

New facility in East Victoria Park supports MVP's growing customer base throughout the Asia Pacific region.

22 June 2017 – MVP Systems Software, Inc., a leading provider of enterprise job scheduling and workload automation software, announced today the opening of new offices in Western Australia. Located at 8 Welshpool Road, the new offices will provide additional training, support, and sales resources for MVP's rapidly expanding client base in Australia, New Zealand, and Southeast Asia.

"Since establishing operations here in 2009, we've received an exceptional amount of interest in JAMS, from organizations struggling with native scheduling tools, to those looking to replace inefficient legacy applications," says Harry Reisenleiter, VP Communications. "Similar to our recent expansion in Europe, this location will enable us to continue to provide premium sales and support services to the global community of JAMS users."

The increasing adoption of JAMS, MVP's flagship IT automation software, by organizations such as Fox Sports Australia, Alinta, Viva Energy, VicRoads, Ardent Leisure Management, L'Oreal Australia, and the University of Otago, has been a key factor the company's growth in the region.

MVP's new Asia Pacific offices can be reached at +61 8 9361 4822 or by emailing australia@jamsscheduler.com.

About JAMS

JAMS is the only job scheduling system built on a .NET framework and is the first enterprise job scheduling system that can be leveraged by both IT Operations Personnel and Application Developers. With its roots in Windows, JAMS also supports running processes across a variety of operating systems (UNIX, Linux, System i, OpenVMS, etc.) and applications (PeopleSoft, SAP, SQL, Oracle, Symitar, Ecometry, etc.) To learn more about JAMS, please visit www.JAMSScheduler.com or call 800-261-JAMS.
