

# Sarnafil® G 410 SELF-ADHERED MEMBRANE

Improve your installation productivity and eliminate solvents, VOCs and odors with the Sarnafil G 410 Self-Adhered thermoplastic roofing membrane.

This membrane provides all of the benefits of a Sarnafil adhered roofing system without the hassle and mess of liquid adhesives. Simply peel back the adhesive release liner and bond the membrane to an approved substrate.

The Sarnafil G 410 Self-Adhered membrane is the easier, faster way to install an adhered roofing membrane.

- No solvents, VOCs or odors
- No membrane adhesives to ship or store
- Enhances productivity
- Easier and safer to install
- Factory-applied adhesive for quality assurance
- Covered by system warranty

## COVERAGE RATES

## APPLICATION STEPS

## A VERSATILE OPTION

The Sarnafil G 410 Self-Adhered membrane is ideal for any project, but especially for those buildings that are sensitive to adhesive odors and fumes:

- Schools and universities
- Healthcare facilities
- Office buildings
- Pharmaceutical facilities
- Retail facilities

In addition, the G 410 Self-Adhered membrane is the perfect solution for high-rise applications where torches and open flames are not allowed.

## AVOID VOC-RELATED ISSUES

It's no secret that VOCs from liquid adhesives can be an issue on certain types of jobs. By eliminating the use of membrane adhesives, you also eliminate VOCs and adhesive odors from entering the building.

## QUALITY ASSURANCE

With the Sarnafil G 410 Self-Adhered membrane, the adhesive is pre-applied at the factory, assuring more consistent coverage versus applied on site.

## DISCOVER A NEW ALTERNATIVE
