

# Fall Sports Are Just Around the Corner -

## Are You Ready?

Concussion Health, in partnership with Nationwide Children's Hospital, will host **The Concussion Health Summit in Columbus, Ohio**, at the Hyatt Regency on **Friday, July 28 and Saturday, July 29, 2017**. This two day long program will encourage education and discussion – bringing together an influential array of experts, practitioners, and innovators from a range of

specialties who will discuss the latest knowledge and technology regarding concussion management. By emphasizing the importance of a multi-disciplinary approach, the Summit aims to make the connection between prevention, baseline testing, time of injury, post-injury exam and the recovery process.

The Program Planning Committee has assembled a faculty of renowned clinical experts to provide opportunities for approved continuing education sessions as well as special programming for concussion survivors and caregivers. The Concussion Health Summit will also provide opportunities to network through social events and round table discussions.
