Healthcare

Symposium 2017

Owen Dahl

MBA, FACHE, LSSMBB

Owen Dahl is an independent consultant with more than 40 years of experience managing medical practices and providing healthcare consulting services. Currently, Owen assists clients from across the country on strategic and operational issues including strategic planning retreats, operational assessments, and integration of hospital and physician programs.

This symposium will help healthcare professionals

- Develop patient engagement methods designed for value based care models
- Takeaway actionable tips for revenue cycle management
- Identify patient-friendly ways to efficiently manage your healthcare facility
