

ADHERENCE & UNIT DOSE PACKAGING IN SMALL FOOTPRINT

- Scalable from 64 canisters to 128 and 192
- Dual tray system allows pre-staging of non-formulary medications for continuous dispensing
- 4 pouch sizes allow more flexibility in providing a solution to any patient population
- 1 drawer of AutoSense™ Smart Canisters that allow swapping for the next tier of medications
- State-of-the-art printing on pouches: various font sizes and styles, logos and icons for visual recognition and pharmacy branding, extended barcodes including 2D and Linear
- User-calibrated canister system available to handle NDC changes

Small footprint provides advanced packaging technology for Adherence and Unit Dose Packaging
