## Envirosight Welcomes Mike Putney as Northeast Regional Sales Manager.

Randolph, NJ—July 26, 2017— Envirosight is pleased to welcome Mike Putney as Northeast Regional Sales Manager, the latest hire in support of the company’s continued double-digit annual growth. With Putney on board, Envirosight has expanded its regional sales manager team from three to four in an effort to give more individualized attention to each of its 25 exclusive North American sales partners. Putney will take over the Northeast territory from Regional Sales Manager Jamie Winters, who will now handle the Midwest.

Putney joined Envirosight April 1 and has been working with Winters and Director of Sales Mike Vislay to transition sales partners to the new management structure. Putney comes to Envirosight with over 20 years’ experience in sales and account management, including 10 years with Supreme Corporation in roles, most recently Director of Sales for the Northeast. Prior to Supreme, Putney held sales and operations positions at Rollins Truck Leasing, including through their buyout by Penske Truck Leasing. “Expanding our sales management team is a direct response to the growth we’ve experienced in the past few years,” says Vislay. “Putney is a great addition to the team as he brings the experience necessary to support his territory—but more importantly, he shares Envirosight’s core values and vision for growth.”

“I’m excited to join an organization that is clearly focused on supporting their sales partner network to ensure sustainable growth,” says Putney. “Aside from Envirosight’s focus on innovative and reliable sewer inspection technology, I see a team of people working together at all levels, bringing a can-do attitude to assisting our sales partners and end users. I’m looking forward to being part of that group.”

Putney is based out of Pittsburgh, PA and will report to Vislay.
