SIMPLIFYING

a confusing industry

THE INDUSTRY TODAY IS LIKE THE MEDICINE SHOWS OF YESTERYEAR...

peddling snake oil and miracle cures. It's filled with large product lines, with each product addressing only a single separate issue. Why? It's a common company-centric sales tactic, designed to entice customers to buy multiple products. But, in the end, customers are confused and unhappy when the amount they can afford only address some of their needs. Plus, this also leads to customers blending brands and products together, which can often harm skin, since they weren't tested to work together.

NO MORE GUESSING GAME...

We offer a simple regimen in only 3 products: a Day Cream, Eye Cream and Night Serum. Collectively, the products improve the look of fine lines and wrinkles, puffiness and dark circles, pores and acne, and overall tone and balance. They also aid in collagen synthesis, reduce free-radical pollutant damage, hydrate and nourish, and promote healthy skin. Because our products balance oil production, they're ideal to use on any skin type in any environment. And the best thing about it? It's an easy regimen to add into the daily routine: one application at night, two in the morning.

WHAT

customers really want

SIMPLICITY AND LONG-TERM RESULTS

Great skincare shouldn't have to take time out of the day. And though customers may not realize it, they don't want short-term immediate results. Those products have what we call **smoke and mirrors**, which is harmful amounts of caffeine and excess moisture that temporarily tighten and plump the skin. This irritates the skin, leaving it in even worse shape. What customers truly want is to love the appearance of their naked skin when they wake in the morning. Long-term results will achieve that.

THE INS & OUTS

only the purest ingredients

NATURAL BOTANICALS VEGAN PROTEINS

Our 3 products are formulated with sensitivity in mind, including pure natural botanicals and custom high-tech vegan proteins. The main or “active” ingredients between the products include hyaluronic acid, marine collagen peptides, sea kelp bioferment, vitamin A, epidermal growth factor, and sodium pca. All are sulfate- and phthalate-free, and never tested on animals. And all of our skincare is made in the USA.

THE PRODUCTS

full circle luxury skincare regimen in 3 products

DAY CREAM

This lightweight and activated cream provides a fresh start to the day with improved skin that looks tighter, hydrated, and radiant.

Reduces the look of fine lines & wrinkles
Aids in promotion of collagen synthesis

Main Ingredients: Seakelp Bioferment, Hyaluronic Acid, Marine Collagen Peptides, Epidermal Growth Factor, Vitamin A

Quantities:
0.5 fl.oz. (15ml) est. 3+ mo supply for \$85

RESULTS

are typical

VALERIE | AGE 69 | results after 6 weeks using all 3 products

BEFORE

AFTER

"I never understood what skincare was. I thought it was soap and sunscreen. And this anti-aging craze came, and I thought that this stuff couldn't work. My skin was my skin, and nothing was going to help with that. And then, my daughter introduced Skin Titan to me. I admit, it took me a long time before she finally got me to try it. And I have to say I will never stop using it! My fine lines around my cheeks, mouth and eyes are so much smoother and tighter. My dark circles around my eyes are lighter. My freckles and sunspots are faded. I don't get acne anymore. The best part is my neck and chest. My skin is smooth, the crepey skin is gone. After 2 weeks of using Skin Titan, I had my daughter over for dinner. She was sitting across the table and she just kept staring at me. And she said, 'Mom, I feel like I'm looking at you 20 years ago.' And I wasn't wearing any makeup."

CHOLLA | AGE 37 | results after 4 weeks using all 3 products

BEFORE

AFTER

"Skin Titan really took the guessing game out of it for me. Here was this package that did it all. And I didn't have to spend tons of time applying all of these products. Just 3 from now on. One at night, 2 in the morning. I'm busy with my 3 daughters, husband, work, and a household to juggle. The last thing I need is to think too much about my skin. Skin Titan is perfect for my routine. The products are really nice. They feel super light. Go really well under my sunscreen and makeup. A lot of skincare is heavy, greasy, and it can fight with anything that is applied on top of it. With Skin Titan, my skin just soaks it up. It's super clear, soft, my freckles are lighter and my color overall is balanced. My fine lines are much tighter."
