

## FFLBIZHUB.COM CREATED TO COST EFFECTIVELY LAUNCH, MANAGE AND GROW FFLS

**HARTFORD, CT / AUGUST 8, 2017** – FFLBizHub.com is a breakthrough, modern software application to launch, manage and grow Federal Firearms Licensees (FFL) and Special Occupational Tax (SOT) holders. Starting as low as \$1.50 per day, firearm business owners now have access to Inventory Management Software, Product Training, Business Applications, Licensing Tools, ATF Compliance Software, and Industry Networking Tools. FFLBizHub.com is powered by Orchid Advisors and developed in conjunction with the four leading industry associations.

“NSSF is pleased to support this program to further help FFLs utilize the latest technology to drive compliance and operational excellence.”

*Patrick Shay, Director of Retailer Services  
National Shooting Sports Foundation*

“In our industry, the burden of managing inventory, compliance and staying current with regulations can seem overwhelming. FFLBizHub.com helps FFLs and SOTs run their operations more efficiently, freeing up resources to focus on growth. We are proud to be one of the leading industry associations involved, because of the value it will provide to our members.”

*Knox Williams, President & Executive Director  
American Suppressor Association*

“FFLBizHub.com revolutionizes how FFLs track and manage inventory, record ATF transactions and train personnel. We are proud to be a partner and encourage the industry to grow profitable and compliant FFLs with these tools.”

*Elizabeth Bush, Managing Director  
NRA Recreational Programs and Ranges*

“NASGW is proud to continue its partnership with Orchid and join together with other industry groups to grow and expand offerings for compliance and other important business services. The Orchid Advisors-NASGW Firearms Research Application, along with all the other tools in the FFLBizHub.com suite of offerings, should make life a lot easier for many firearms business owners.”

*Kenyon Gleason, President  
National Association of Sporting Goods Wholesalers*
