EVLUMA ConnectLED™

ANDROID & WINDOWS WIRELESS CONTROLS SOFTWARE

FOR AREAMAX™ AND OMNIMAX™ LED LIGHTING

CLED PC
CLED TBL

DESCRIPTION

ConnectLED™ is a software application that communicates with both the AreaMax LED luminaire for area and security lighting and the OmniMax LED retrofit via BLE (Bluetooth Low Energy). Enhance energy efficiency with dimming and custom brightness settings. Reduce maintenance costs with connect and disconnect functions. Every AreaMax comes with FaultCast™ built-in. Use ConnectLED to easily read these maintenance transmissions from the ground.

ConnectLED:
Windows Laptop (dongle)
and Android available.

COSTS.

OVERVIEW
Bluetooth Protocol
Windows 7, 8.1, 10

Android 7" tablets and larger
Android 4.4(KitKat) and above

For AreaMax & OmniMax
Evluma Proprietary

Dimming

Maximize energy savings when setting custom dimming schedules for anytime between dusk and dawn. Dimming range is between 100% to a 20% glow.

Custom Brightness

The AreaMax delivers .01 fc at up to four mounting heights. Need less light due to location (light trespass), or energy budget? Define brightness settings that also save energy. Perfect for light sensitive areas. Match with the full-cutoff AreaMax for the best Dark Sky Friendly results.

Connect/Disconnect

Easily manage the use of electricity from the ground during the transfer or disconnection of service and save on maintenance. Perfect for areas that only require seasonal lighting.

FaultCast
Maintenance Transmissions

Every AreaMax and OmniMax comes with FaultCast built-in. Use ConnectLED to activate this handy maintenance feature that reads the status broadcast from the Evluma lamp during the day - the hardest time to troubleshoot a light!

Operating Platform

ConnectLED for Android v2.2 runs on Android tablets with a 7inch, or larger screen and is available for download from Google Play. ConnectLED for Windows v12.3 runs on 7, 8.1 and 10 (laptop recommended) with a licensed dongle.

Range of Operation

Operates up to 150 ft from the luminaire. Line of sight recommended.

Licensing

ConnectLED Android v2.2 is available with a Site license. Combine ENTERPRISE and BASIC user licenses under one customized site license depending on your staff requirements. A PROMO license is available when purchasing an AreaMax 4 x 4 or OmniMax 3 x 3 pilot. Tablet not included. Contact Evluma Customer Service for a list of recommended devices.

ConnectLED Windows v12.3 is available in ENTERPRISE, BASIC AND PROMO. Site licence pending with new version release.

Connectivity

ConnectLED uses Bluetooth Low Energy (BLE). Every AreaMax or OmniMax is shipped from the factory with the ability to communicate with ConnectLED. Activate management and energy saving features at any point during your ownership of either Evluma lamp.
