## **ITIC Corporation Announces Rebranding and New Website**

*ITIC Corporation has updated its brand and completely redesigned its website offering visitors richer insight into the Company's commitment to its employees and customers*

**Westminster, MD: - August 15, 2017** – ITIC Corporation provides government agencies and prime contractors with IT services including systems engineering, software engineering and development, cyber security, and systems modernization. ITIC's cleared professionals lead, manage, and support highly technical programs and projects to help their customers meet their mission goals. Their newly redesigned website offers quick and easy access to essential information and features that offer a more comprehensive understanding of the company's innovative approach to providing solutions in the intelligence community.

The new website has a clean, uncluttered design and improved navigation focused on the company's mission to provide its customers and partners with highly qualified technical resources. The new website went live August 7, 2017 and is located at the same address: [www.iticcorp.com](http://www.iticcorp.com).

"We are excited about the new website launch and robust information it provides for customers, partners and prospective employees. Our goal is to provide information that allows visitors to have a better understanding about our service offerings," shared [Paul Brown, ITIC Founder and Chief Executive Officer](#). "We believe that this new site will allow our visitors to have a very informative experience as we continue to grow and increase our industry presence."

### **About ITIC Corporation**

ITIC plays an integral roll in the modernization and efficiency of infrastructure for its government customers. Setting up major systems and evolving them into the highly reliable and mission critical systems that partners need is key. Established in 2004 under the leadership of United States Navy Veteran Paul W. Brown, ITIC has grown to be a highly respected and valued Systems Engineering partner in the Intelligence Community. With decades of combined technical knowledge among our professional staff, ITIC has earned the respect and support of some of the nation's most recognizable prime contractors and government agency customers.
