Service
Supplier

Today, organisations are transforming at an unprecedented rate. IT should be a **key enabler** and **driver of change**, however, it's not always easy to get right.

Organisations are finding that relying on old school technology partners isn't necessarily the best option to deliver **fast, innovative and cost-effective change.**

Those that are best placed to help you are companies who are really **passionate** about working together as your **true partner** and who always **put some skin in the game.**

FOCUSED INTENTLY ON OUR CLIENTS

Hunter Macdonald is committed to being such an organisation. As former FTSE 100 IT Directors and technologists, we realised traditional suppliers were unable to meet our demands and asked ourselves what would be the attributes of the perfect technology supplier. We then built Hunter Macdonald around these principles. This approach has resonated well in the marketplace and we are now one of the fastest growing technology companies in the UK.

BE AGILE & FLEXIBLE

Our teams flex to meet the demands of our clients and are agile enough to ensure that even the most challenging of deadlines can be achieved. Failing to meet commitments is not an option and we don't believe clients should be penalised for change.

DEVELOP PARTNERSHIPS

We want to be seen as an extension of your IT Department, a trusted advisor and true partner. Our teams will be as passionate about your organisation as you are, sharing a real desire to deliver exceptional IT and fully committed to meeting project goals.

ACT WITH INTEGRITY

Integrity runs through our DNA. Our teams always do what is appropriate and act in the best intentions of clients. By always doing what is right, ahead of any commercial interest, allows us to build long-term, trusted relationships with our clients.

REDUCE COST & SHARE RISK

We have a strong background in delivering high-quality, low-cost IT solutions and services. We are always willing to 'put some skin in the game' and offer true fixed-price commercials to ensure we're only rewarded when our client's requirements are fully met.

DEMONSTRATE EXPERTISE

Our teams are made up of true experts in their field. We train them well and ensure their expertise is constantly refreshed. We also invest heavily in knowledge sharing tools to ensure our clients benefit from the collective knowledge of Hunter Macdonald.

CONSTANTLY INNOVATE

Our teams are passionate about IT, actively keeping abreast of the latest products and services to ensure clients benefit from technology advances. We pro-actively research how industries are innovating to ensure our clients stay ahead of the game.

Our objective is to
continue to build
upon our excellent
reputation and be
**recognised as
the company that
succeeds where
others fail.**

- Driving Operational Excellence

Hunter Macdonald work with many of the **world's leading companies** as well as **key government departments.**

SERVING YOU BETTER

Hunter Macdonald **is passionate** about delivering cost-effective IT services to our clients and we always look to show our commitment by offering true fixed-price, outcome-based commercials.

We pride ourselves on being extremely agile, delivering fully costed proposals rapidly and able to 'stand up' project teams within the timescales required.

As a privately owned company, with no bias towards any organisation or product set, we can offer **expert advice** that is not swayed by commercial self-interest.

Being privately owned also means that we concentrate on long-term goals and are not driven by short-term revenue objectives, this allows us to **build strong partnerships** with our clients.

Every member of our team understands that success isn't about almost delivering to SLA or delivering most projects on time, it's about **ensuring our client's requirements are always met** or surpassed.

The Hunter Macdonald team is passionate about delivering **cost-effective, innovative technology** solutions and services.

Our team is made up of some of the **best technologists** in the industry, each of whom is **100% focussed** on providing real value.

You have our commitment that each engagement will be a **complete success** and we provide financial guarantees which incentivise us to **always deliver**.
