Create-A-Cove™

Create a linear LED lighting cove with this economical, time saving solution.
Easily install it on finished walls in offices, hotel rooms, hallways and lobby areas.

When using Create-A-Cove you can build a lighting cove on a finished wall without the high cost of builders and finishers. Save on time, money and a likely contractor fee. It's made of extruded aluminum with a basic two-part housing that has a round or square face option along with inside and outside corners. It can be installed on finished walls quickly and economically avoiding a huge mess.

- **SAVE Time & Money**
- **Quickly create a lighting cove**
- **Designed for CoveLine™ Linear LEDs**
- **Any size linear run**
- **Features inside & outside corners**
- **Safely install on finished surfaces**
- **ADA Compliant**

CoveLine™
### Linear Luminaires

Made in USA

Create-A-Cove is specifically designed to work with our Linear Indoor CoveLine Series luminaires.

Design • Performance • Sustainability

CREATE-A-COVE™

Create-A-Cove Round **(CACR)**

Create-A-Cove Square **(CACS)**

CREATE-A-COVE is a surface mounted housing that's part of a cove lighting system for interior design applications. It's specifically designed to use our CoveLine™ Series products. LED CoveLine™ luminaires are sold separately. The modular system allows designers to add Cove Lighting without the additional time and expense of hiring builders and finishers to construct permanent wall coves. It's perfect for creating design accents, wall washes and grazing effects and is beneficial to both large and small areas. **CREATE-A-COVE** features straight runs and 90 degree inside and outside corners that can be run in a continuous linear pattern.

ADA **Compliant**

How To Order

Submit A Dimensional Drawing: Please submit a drawing of you room layout with the linear feet of each wall and where an inside or outside corner will be installed.

Linear Feet & Corners: Based on your room drawing and dimensions we will create a bill of materials for the installation.

Finish: The fixture's aluminum housing is painted using a durable 8-stage powder coat process. Our standard colors include Black, Bronze, Silver and White. We can also match any custom any Custom Color by providing a color chip or RAL paint reference number.

CoveLine Linear Indoor Lighting: Choose your from any of our CoveLine Series Linear Indoor product line to match your required lighting specification. Match your color temperature, Lumen output and choice of optic beam. Contact your local representative for product details. **Visit SolidStateLuminaires.com and click on Rep Locator.**
LED Source
