Rigaku will be in attendance at the 2017 Materials Science and Technology meeting, promoting its latest X-ray analytical solutions

September 20, 2017 – The Woodlands, Texas. [Rigaku Corporation](#) is pleased to announce its attendance at the 2017 Materials Science and Technology meeting and exhibition ([MS&T 17](#)) at the David L. Lawrence Convention Center in Pittsburgh, PA, October 8-12, 2017.

Rigaku will represent its latest lines of X-ray analytical instrumentation at Booth # 608.

MS&T is the annual materials science conference presented by four technical societies. It offers a unique technical program addressing structure, properties, processing and performance across the materials community. The exposition showcases a wide variety of equipment and services to the automotive, aerospace, instrumentation, medical, oilfield and energy industries.

Rigaku is dedicated to the development of X-ray technology to probe the structure and composition of synthetic and natural materials and provides the world's most complete line of X-ray diffraction and X-ray fluorescence instruments, including benchtop X-ray diffraction ([XRD](#)), X-ray fluorescence ([XRF](#)) and small angle X-ray scattering ([SAXS](#)) systems.

About Rigaku

Since its inception in Japan in 1951, Rigaku has been at the forefront of analytical and industrial instrumentation technology. Rigaku and its subsidiaries form a global group focused on general-purpose analytical instrumentation and the life sciences. With hundreds of major innovations to their credit, Rigaku companies are world leaders in X-ray spectrometry, diffraction, and optics, as well as small molecule and protein crystallography and semiconductor metrology. Today, Rigaku employs over 1,400 people in the manufacturing and support of its analytical equipment, which is used in more than 90 countries around the world supporting research, development, and quality assurance activities. Throughout the world, Rigaku continuously promotes partnerships, dialog, and innovation within the global scientific and industrial communities.
