MVP Systems Software Announces Global Exhibit Schedule

MVP Systems Software will showcase JAMS at leading tech conferences around the world.

28 September 2017 – MVP Systems Software, Inc., a leading provider of enterprise job scheduling and workload automation software, will exhibit at multiple trade shows and conferences in the United States, Europe, and the Asia Pacific region. The company's JAMS team will offer live demonstrations of powerful workload automation on multiple technology platforms and applications. Engineers will also introduce developers to the REST and .NET APIs available for integrating JAMS into custom applications and scripts.

"The momentum behind centralized automation has generated tremendous interest in JAMS. In the last 2 years, we've established customer bases in more than 25 countries worldwide. Simultaneously, we have expanded our Europe and Australia offices to support the growing community of JAMS users," says Harry Reisenleiter, MVP's VP of Communications. "These events, several of which are free to technology professionals, provide excellent opportunities to see first-hand how JAMS is transforming the digital enterprise."

About JAMS

JAMS is the only job scheduling system built on a .NET framework and is the first enterprise job scheduling system that can be leveraged by both IT Operations Personnel and Application Developers. With its roots in Windows, JAMS also supports running processes across a variety of operating systems (UNIX, Linux, System i, OpenVMS, etc.) and applications (PeopleSoft, SAP, SQL, Oracle, Symitar, Ecometry, etc.) To learn more about JAMS, please visit www.JAMSScheduler.com or call 800-261-JAMS.
