

Introducing ali-Q™

The first-ever aliquoting pipet controller

One-button aliquoting

Get accurate and precise aliquots without the need to “eyeball” the meniscus.

- Faster aliquoting with the press of one button.
- Also aspirates and dispenses like other pipet controllers.
- Uses any size or brand serological pipet.

Use **VistaLab™ Wobble-not™** serological pipets with ali-Q for the ideal pipetting system.
