

Instant 2-way Visual Share and...

- ◇ Connect Live With Patients
- ◇ View Patient Medications
- ◇ Inspect Wound Care
- ◇ Share Patient Education
- ◇ Capture Insurance Info
- ◇ Explain Billing / EOB's
- ◇ Obtain Authorization & Consent
- ◇ Review Discharge Instructions

SnapVideoCare from PREMEDEX allows immediate, secure, two-way visual sharing of information with your patients. There is no app or download required, making this the most easy-to-use photo / video share technology in healthcare. Here's how it works: Provider sends patient a text. Patient receives text. Camera on smartphone is instantly activated to capture and transmit a picture or video of medications, symptoms (ex. rashes, blisters, incision sites, etc.) and much more.

Email Open Rate

Email open rates hover around 20-25%.

Texting Open Rate

Text messages have a 98% open rate.

Email Response Rate

Email has a 6% response rate.

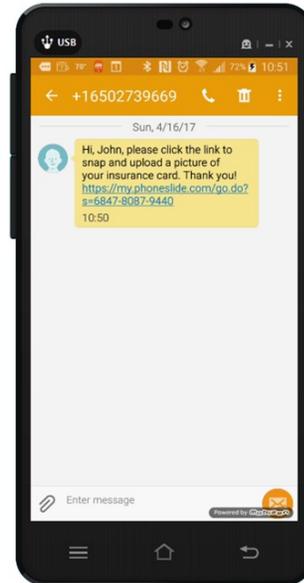

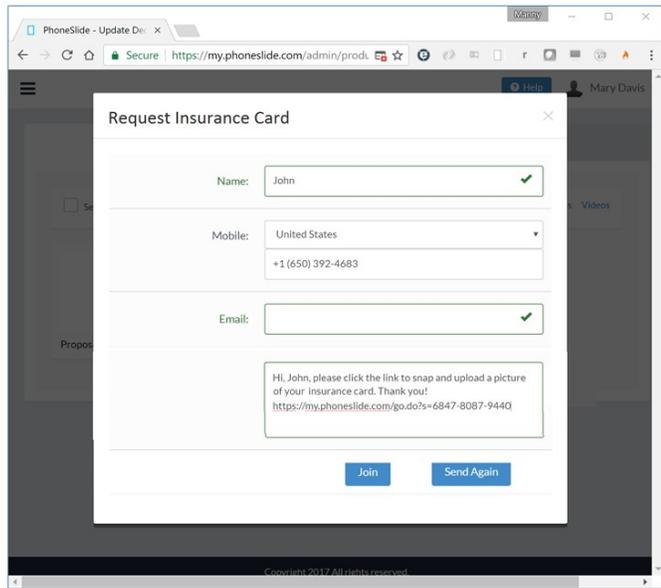

Texting Response Rate

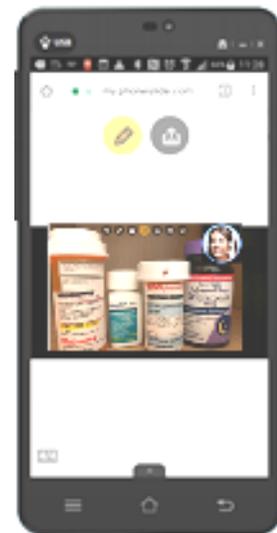

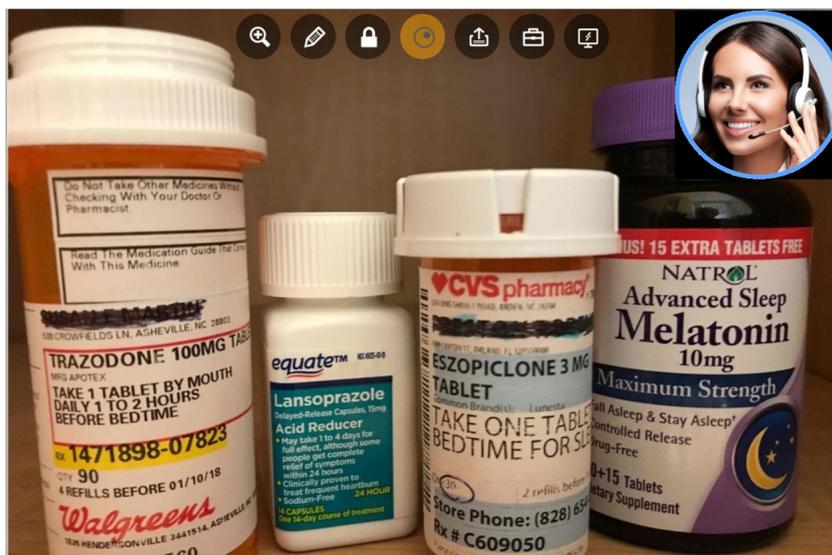

Text messages have a 45% response rate.

- ◇ Patients Are More Likely to Engage via Text
- ◇ No App or Download Required
- ◇ Instantly Connect with Patients for Photo or Video Share
- ◇ Increase Staff Efficiency with Quick Resolution to Issues
- ◇ Intuitive & Easy to Use
- ◇ Increase Patient Satisfaction & Improve Patient Rapport

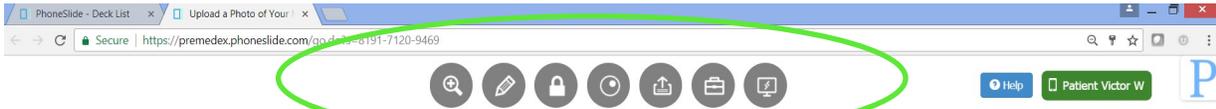

Step 1 - Provider Delivers Link via Text or Email to Patient

Step 2— Patient Clicks Link - Instantly Shares Picture, Video & Sees Provider

Features - Simple but Powerful Features Available to Both Provider & Patient

Step 1: Tap the button above that looks like

Features:
