

iPatientCare Got Listed Among The Most Popular EHR Rankings of Capterra-2017

iPatientCare is on Capterra's Most Popular EHR list in 2017

Woodbridge, NJ, October 19, 2017 — iPatientCare, a pioneer in cloud-based ambulatory EHR and Revenue Cycle Management services, takes pride in announcing the inclusion of iPatientCare EHR as one of the nation's Top 20 list of the Most Popular Electronic Health Records Software for 2017. **Capterra recently released the 2017 ranking** of the leading EHR solutions measured by their unique automated algorithm including the combination of total number of customers, users, social presence, knowledge shared, reviews etc. iPatientCare EHR ranked at 11th place.

Electronic Health Record (EHR) software gives medical professionals access to patient medical records from a centrally accessible system. EHRs typically include medical history, laboratory results, medication, allergies, and even billing information to help create a more streamlined process for patient care.

iPatientCare cloud-based ambulatory and inpatient EHR is advanced, accessible and highly available application platform, Integrated Practice Management, Patient Portal Solutions, professional and institutional billing system, health information exchange, and mHealth suite.

Capterra is providing a free service to help businesses find the right software by offering the most comprehensive list of business software solutions on the web so that end users can find the best match.

*"It always helps an organization to do best work, get achievements and hear good acknowledgments when the entire team is passionate about getting the organization onto the whole new level. iPatientCare has succeeded by delivering solutions that were designed to be user friendly and intuitive; the rating reflects the growth in our customer base which is due to iPatientCare robust EHR and **practice management software** which is again designed as per needs and workflows of Physicians' offices", said Vikas Agrawal, Marketing Manager and Strategist, iPatientCare.*

About iPatientCare:

Based at Woodbridge, New Jersey, iPatientCare is a private-held Corporation that is nationally recognized as one of the leading companies providing EHR and integrated MACRA-ready solutions and intelligent medical billing and revenue cycle enhancement services to physician offices providing primary and specialty care, rural health clinics, and community/federally qualified health centers (CHC/FQHC) nationwide.

At iPatientCare, we help healthcare providers to dramatically reduce A/R days and improve collections rates, reduce billing costs, eliminate the burden of repeatable, high volume work on their internal teams, and plug gaps in staffing and internal bandwidth. Our expert teams are comprised of senior executives with extensive experience in clinically-driven revenue cycle management systems including

certified billers and coders with managerial capabilities to facilitate client interactions, escalations and SLA. We also provide a dedicated account manager and a team of talented experts assigned to work as an extension of your office, instead of operating as an outsourced billing company or technology vendor.

iPatientCare EHR 2014 (2.0) has received 2014 Edition Ambulatory Complete EHR certification by ICSA Labs, an Office of the National Coordinator-Authorized Certification Body (ONC-ACB), in accordance with the applicable eligible professional certification criteria adopted by the Secretary of Health and Human Services (HHS). Full certification details can be found at [ONC Certified Health IT Product List](#). If desired, we make the difficult tasks of revenue cycle optimization and MACRA/PCMH/QR reporting easier by bundling innovative EHR and other cloud-based practice solutions as part of our revenue cycle management and MACRA consulting services at no additional costs.

As part of its MACRA-ready solutions, iPatientCare has been recognized as a qualified MACRA-MIPS registry for the year 2017 by CMS, and has a distinguished credit of being selected as a preferred EHR vendor and medical/chiropractic billing company by more than 70,000 users nationwide, numerous hospitals/health systems, federally funded regional extension centers, and in the past by the US Army and NASA Space Medicine.
