ALO HOUSE RECOVERY CENTERS NAMED BEST TREATMENT CENTER IN MALIBU

MALIBU, CA (November 20, 2017) — Alo House Recovery Centers was recently named the best treatment center in the Malibu Choice Awards.

“Malibu has dozens of rehabilitation and treatment centers, so we are humbled to be awarded the best treatment center,” says Evan Haines, a founder of Alo House. “Our philosophy is based on providing non-judgmental, loving support for our clients. We aim to empower our clients and provide them with a sense of comfort and belonging. And we do this with the highest possible quality of clinical care. We are truly honored to be recognized for providing the best addiction treatment in Malibu.”

The award for best treatment center was voted on during the summer by the people of Malibu and the readers of *Malibu Surfside News*. This was the first year of the awards. The winners were recognized at an event on September 29 at CURE Spa, as well as in the October 12 issue of *Malibu Surfside News*.

“Being awarded the best treatment center in Malibu is very meaningful to our dedicated and compassionate staff at Alo House. Combined, our staff has nearly four hundred years of experience working with those who suffer from addiction,” says Haines. “Thank you to everyone who believes in the work we do at Alo House and understands the importance of recovery.”

If you know someone in need of holistic drug and alcohol treatment, call Alo House Recovery Centers at (888) 466-8340 or email info@alorecovery.com.
