

Hello World!

The Original 3-in-1
children's boots are here.

Like gum balls for children's feet.

THE ORIGINAL 3-in-1

Butler has invented a bold, innovative, playful and versatile brand of protective, all season 3-in-1 footwear for kids. Yes, you read it right! Butlers are **4 season boots** AND **overshoes** AND **slippers** all in one! **Whatever the weather**, your children's feet are in good hands.

1

4 SEASON BOOT with liner

From snow & cold (-30F / -35C)
to rain & sun (+68F / +20C)

2

OVERSHOE with liner removed

From snow & cold (-22F / -30C)
to rain & sun (+68F / +20C)

3

SLIPPER liner only

The liner becomes a cozy slipper.

ABOUT BUTLER

Our Promise

The art of leading through change starts with understanding what has not changed:
THE SPIRIT OF CHILDHOOD.

Children are born with an insatiable desire to leap into the great unknown – a sense of wonder and mystery and magic and dancing in a world where anything is possible and the only limit is your imagination. At Butler, our quest for unique innovation is focused on protecting that dance.

Your Children's Feet Are in Good Hands!

“The art of leading through change starts with understanding what has not changed:
THE SPIRIT OF CHILDHOOD.”

Our Story

We never actually lose that spirit, it simply carries into parenthood. As the founder of Butler and a parent of four, it was important for me to continue weaving that never-ending dance with my kids. That meant finding solutions to encourage them to never stop exploring the great outdoors – and create their most treasured memories. We watched our children's daily routines, imagining how to meet their needs instead of dictating them.

Children deserve stylishly designed products that offer complete latitude and practicality in all conditions, so that they can have fun without a care in the world. And as parents, we deserve peace of mind, knowing that we've made the best possible choice for our little ones.

Butler: From snow and cold to rain and sun!

Made On Planet Earth: First stop, USA!

We're driven by product quality above all else. By basing our manufacturing entirely in the USA, our goal is to have an eco-friendly impact and to make a difference in the community. It's also the ultimate quality assurance: people working nearby, carefully crafting every item to meet the highest standards - creating a product they wouldn't hesitate to give to their own kids.

Butler boots - Proudly Made in the USA!

Where does our name come from?

Our boots aren't called **Butler** for nothing. Our inspiration came from the literal classic and well-mannered helper that's a big part of your family and always at your service. Symbolized by a lovable loyal penguin with a fondness for all things wet or cold, Butlers are always there to help; by protecting little feet and shoes and making life a little easier when bad weather gets in the way.

Nothing takes care of you like a Butler!

Brighten up even
the dullest days!

EXTRA FEATURES

100% waterproof

Butler boots are perfect for snow thumping and puddle jumping and keeping little feet dry, warm and cozy, whatever the weather. Splash around or stay outside building snowmen for hours. From rain and sun to snow and cold, you're covered!

Custom Velcro® Brand closure

We wanted a closure that would be extremely durable and reliable, so we partnered with the very best in the industry.

Made in USA

Manufacturing Butler boots in the United States ensures the highest quality product and helps support the local economy. So we're helping keep the American dream going strong while keeping little feet happy.

4 season versatility

Little feet and their shoes need protection from the rain, sleet and snow. From -30F / -35C to +68F / 20C, children can wear their Butler boots anywhere and everywhere. Butlers are a well-mannered helper and a symbol of peace of mind.

Dishwasher safe boot

You're already busy enough, right? Simply take the liners out, and put the Butler boots in your dishwasher with your next load and they'll come out as bright as new.

Non-toxic and environmentally-friendly

All our materials are eco-friendly and meet or exceed all Consumer Safety tests, with zero traces of lead or plastic toxins. So you can be sure your children's feet are in good hands.

Easy on, Easy off

Butlers' easy-on puller is practical, tear-resistant and easy to use, helping little ones develop a sense of independence. Because they're built to stand up on their own, sliding off a pair of Butler boots is just as simple.

Machine washable liner

High tech and 16mm thick yet so easy to keep clean! Simply throw our liners/slippers in your next machine load.

Slip resistant sole

Butler's reliable rugged outsole keeps little ones from slipping and sliding as they explore the great outdoors.

Big fan easy entry system

Thanks to its flexible design, any type of shoe can fit comfortably inside the Butler, from high-top sneakers to ballet slippers.

AFO, orthotics & special needs friendly

Butlers are meant to be worn by all children, all year round, whatever the weather.

Ultra lightweight

Butler boots are lightweight, so you can easily carry them with you wherever you go.

Four seasons of fun
for little feet.

SPECIFICATIONS

Waterproof & Insulating

Made from one mold, Butler outer shells use no glue or stitched parts that would cause leaky seams. The liner ensures warmth to -30F / -35C and cool to +68F / +20C.

Construction & No Adhesives

Butler uses a TPE compound, a consistent high performer in cold temperature crack tests and slip & wear tests. The accordion pleat and strap lock in the foot or shoe. We use heat and NO adhesives for the liner lamination. This insures improved breathability & eliminates toxic substances. Our materials are lead and phthalate free.

Breathability & Comfort

Butler's Atmosfeel 3-part liner lamination ensures superior breathability and long-term comfort in cold and warm weather.

1. Breathe Right® breathable 16mm compression foam is the latest in breathable technology, providing the ultimate cold and warm weather comfort and ensuring a quick drying time.
2. The inside layer is a polyester based tacliner. This ensures that moisture is wicked away from the foot and combats odor causing bacteria, fungal mold and mildew.
3. The outside lining material is a Skyline polyester fabric increasing the wicking effect and providing lasting durability.

Dual Density Footbed

Our liners are completed with a dual density footbed to maximize the child's comfort while insuring a snug and stable foot. It is coated with Agion®, the best performing antimicrobial on the market.

The Ultimate Comfort

Immediate Comfort

No other boot provides the cushioning and hugging effect achieved from our combination of liner and TPE outer shell. The 15mm thick breathable liner combined with the TPE outer shell hugs the foot to provide unprecedented cushioning not achieved with traditional boot construction.

Long Term Comfort

Breathability is the key to sustained warmth and comfort and the Butler's Atmosfeel breathable laminate works better than any traditional boot liners.

Capturing the spirit
of childhood.
