ZEUS Scientific, a leading global *in vitro* diagnostic test company, offers complete and flexible solutions for autoimmune and infectious disease testing across three technology platforms for enhanced flexibility and efficiency in any lab. ZEUS already markets the AtheNA Multi-Lyte® products direct to end users in the United States and pairing the ZEUS ELISA Test Systems with these offers laboratorians flexible testing solutions that can change to their evolving workflow requirements:

- **AtheNA Multi-Lyte Test Systems:** Our multiplex, bead-based system tests multiple analytes simultaneously in the same well. This, combined with our patented Intra-Well Calibration Technology®, efficiently produces more reportable wells per run than other similar methods.
