RM140 *Miniature "Mini"* RING LIGHT

LOW-ANGLE | MULTI-DRIVE™

The compact and powerful RM140 Mini Ring Light is a low-angle ring light that works best for dark field ring applications. The light can also be used for radial illumination. The RM140 series features a sealed, IP65-rated aluminum housing and includes Smart Vision Lights' built-in Multi-Drive™ constant current driver that allows the light to operate continuously or in OverDrive™ strobe mode. The RM140 also offers overcurrent protection, as well as PNP and NPN strobe input.
