I wonder what we'll find out there.*

► Fact Sheet

Developer: Dig-iT! Games

Platforms: Facebook, iOS, Android

Release Date: Now Available

Website: <https://silkroad.dig-itgames.com/>

Price: Free!

► Description

Coins rule in this new match 3 adventure game. Your trusty and loveable camel companion, Matthias, will guide you along the treacherous 6,000km Silk Road through the Roman, Parthian, Kushan and Han Empires. Match ancient coins, visit important cities and build your reputation as a master trader. There's a great fortune to be made here!

Along the way from the sunny Mediterranean to the Asiatic Steppes, players will visit famous cities, interesting villages, and trading posts full of new and exciting goods. As they match ancient coins at each stop, their reputation will grow until their status is high enough to gain admittance to the next Empire. They won't let in just anyone! Only traders with excellent reputations can travel the whole route and discover the unique features of each Empire.

Our now famous camel "Matthias" will keep the player company down the long trail with sassy comments, a variety of expressions, and plenty of fun trivia.

Solve the puzzles of the Silk Road to make your fortune as a Master Trader!

► Trailer

► Features

- Match game play using ancient coins from past empires: level objectives include targeted score, timed puzzles, ingredient collection, and board clearing
- Play over 200+ addictive levels with more on the way
- Encounter three unique civilizations (Han Empire coming soon) with their own ingredients, coins, and guards who demand a certain amount of stars before allowing passage
- Toss an ancient coin into Daily Reward Fountain for prizes
- Use helpful boosters including +5 moves, random 3x3 square, swap two coins, +2 wildcards and more
- Learn fun facts from your camel companion
- Take in beautiful and colorful historical scenes
- Enjoy special events like the upcoming Chinese New Year!
