# Auto ID and Mobile Computing Expert William P. Mosher joins CSSI Technologies as Senior Account Manager

**LEWISBURG, PA January 22, 2018** — CSSI Technologies, Inc., a technology firm based in Lewisburg, PA, announces the appointment of William P. Mosher as Senior Account Manager. Mosher brings to the role his many years of experience guiding customers in the selection and application of auto ID and mobile computing technologies. He will work with CSSI Technologies customers throughout the Mid-Atlantic region.

"We are pleased to welcome Bill to our growing team at CSSI Technologies," said company president Joe Tosolt. "Bill's success in guiding customers in the successful adoption and implementation of leading-edge barcoding, RFID, and handheld computing solutions will accelerate our strategy of enhancing customer productivity through technology."

Mr. Mosher is a multi-certified technologist with experience managing enterprise implementations of both hardware and software solutions for customers in verticals including manufacturing, transportation & logistics, retail, hospitality, field mobility, warehousing, location services, healthcare, and more. His product competencies include barcoding, RFID, mobile computing, wireless/wifi/wimax, Android, enterprise mobility, and mobile device management (MDM). He holds a degree in Computer Science.

**About CSSI Technologies, Inc.**
