THE CONSUMER ELECTRONICS SHOW - (CES) IS THE YEARLY GATHERING WHERE EVERY NEW LIFESTYLE CHANGING TECHNOLOGY IS FIRST SEEN.

KATLEAN DE-MONCHY... EDITOR IN CHIEF OF NEXTPERT HAS A PREVIEW OF THE NEW TECHNOLOGY THAT WILL SOON BE ENTERING OUR LIVES.

(PRONOUNCER: duh - mahn SHEE)

((PKG // NEW VERSION))

((KATLEAN ON CAM))

THIS YEAR ARTIFICIAL INTELLIGENCE IS MAKING A BIG IMPACT IN ALL AREAS OF OUR LIVES.

IF YOU DON'T ALREADY HAVE A DIGITAL ASSISTANT YOU WILL VERY SOON... SMART SPEAKERS ARE ON TRACK TO HAVE THE SAME IMPACT AS TABLETS AND D-V-D PLAYERS IN OUR HOMES.

((IZZY SANTA / Director, Policy Communications CES :08 more and more you are going to see products where you are going to be able to talk to them and tell them 'please turn this on' 'tell me what my traffic conditions are for going to work'))

AND YOU'RE GOING TO BE SEEING ADDED INTELLIGENCE IN A LOT MORE CARS CREATING A PERSONALIZED AND SAFER DRIVING EXPERIENCE. THE FOLKS AT DERIVE HAVE DEVELOPED THIS DONGLE THAT COULD END DISTRACTED DRIVING.

((MARCO - the Derive VQ dongle, together with our app, creates driving experiences personalized to each driver. For teens, for example, you can disable all non-emergency phone use, restrict the speed to the posted limit and require that the seat belt be fastened before the car will start.))

TECHNOLOGY IS ALSO KEEPING UP WITH OUR ONLINE SHOPPING HABITS WITH THESE HIGH TECH MAILBOXES FROM DECAEYUX THAT CONNECT TO AN APP TO KEEP YOUR DELIVERIES SAFE.

((MY COLIS BOX CEO SOT - The xx my colis box product is a very easy and secure product because it cannot be hacked compared to Amazon it's not a wifi solution its a mobile solution it's very secure so xxx plug and play its very easy to use))

((Volocopter standup: and one of the biggest wows here at STL this is the taxi of the future powered by intel and mercedes benz its a drone powered taxi can you imagine this? Driverless that will take you from one place to the other. Too much traffic? No problem!))

IF YOU CAN'T BE AT C-E-S ... INTEL AND SANSAR STUDIOS HAVE YOU COVERED! THEY CREATED A VIRTUAL VERSION OF THE INTEL BOOTH WHERE YOU CAN INTERACT IN A VIRTUAL WORLD AS IF YOU WERE THERE... AND THAT'S NOT ALL

((LISA WATTS SOT: then we got super lucky we got the chance to work on a space called Aech's Garage part of Ready Player One - set in 2045 where people live in virtual world - big cult following we worked with WB and HTC to tease out this new space))

I GOT TO CHECK IT OUT AND I HAVE TO SAY IT'S PRETTY COOL...

((KATLEAN ON CAM TAG))

AND THERE'S SOME FUN THINGS HERE TOO LIKE THIS "QOBO" THERAPEUTIC ROBOT CUSHION... PAIRING THE HEALING PROPERTIES OF A PET WITH THE ROBOTICS WORLD.

HOW CAN YOU NOT LIKE THIS? IT MAKES EVERYONE HAPPY.
IN LAS VEGAS I'M KATLEAN DEMONCHY.
