

Rigaku to Feature Latest Analytical Instrumentation at Pittcon 2018

Rigaku Corporation
4-14-4, Sendagaya
Shibuya-Ku,
Tokyo 151-0051, JAPAN

Rigaku will be in attendance at Pittcon 2018, exhibiting its benchtop XRD and XRF spectrometers at Booth numbers 2000-2002

January 27, 2018 – Tokyo, Japan. [Rigaku Corporation](#) is pleased to announce its attendance at the 69th annual Pittsburgh Conference on Analytical Chemistry and Applied Spectroscopy ([Pittcon 2018](#)), held Monday, February 26, 2018 through Thursday, March 1, 2018 at the Orange County Convention Center in Orlando, FL USA.

Rigaku provides the world's most complete line of X-ray analytical instruments and will be exhibiting its diverse line of lines of X-ray diffraction ([XRD](#)), X-ray fluorescence ([XRF](#)) and [handheld](#) Raman and LIBS instrumentation at the conference at booth numbers 2000, 2001 and 2002.

The Rigaku Group of Companies are world leaders in the fields of general X-ray diffraction, thin film analysis, X-ray fluorescence spectrometry, small angle X-ray scattering (SAXS), protein and small molecule X-ray crystallography, Raman spectroscopy, X-ray optics, semiconductor metrology, X-ray sources, computed tomography, nondestructive testing and thermal analysis.

Pittcon is the world's largest annual premier conference and exposition on laboratory science, keeping the scientific community connected to significant ongoing findings and new instrumentation.

About Rigaku

Since its inception in Japan in 1951, Rigaku has been at the forefront of analytical and industrial instrumentation technology. Rigaku and its subsidiaries form a global group focused on general-purpose analytical instrumentation and the life sciences. With hundreds of major innovations to their credit, Rigaku companies are world leaders in X-ray spectrometry, diffraction, and optics, as well as small molecule and protein crystallography and semiconductor metrology. Today, Rigaku employs over 1,400 people in the manufacturing and support of its analytical equipment, which is used in more than 90 countries around the world supporting research, development, and quality assurance activities. Throughout the world, Rigaku continuously promotes partnerships, dialog, and innovation within the global scientific and industrial communities.
