

Intuitive, agile task management for businesses and large teams

Developed in close collaboration with teams from around the world, MeisterTask Business is designed to meet the project management needs of large enterprises, while remaining one of the simplest and most intuitive software solutions on the market.

MeisterTask Business Features

Roles and permissions:

Assign different roles to team members and restrict their ability to modify projects and/or tasks.

User groups:

Create groups of multiple users within your Business team and share/unshare projects with them at the click of a button.

Team projects:

Make projects visible to your whole Business team. Team members who want to actively collaborate on these projects, rather than just view them, can join manually.

Priority Support:

Get guaranteed support within 8 hours from our dedicated support team.

MeisterTask Business is now available for \$249 per user/year.
