Healthcare Analytics

Dynafios 4CAST Platform

Understand where variation exists in the delivery of care and how to eliminate costs.

- ✓ Get a quick overview of a program, service line or site of care
- ✓ Review financial, operational and quality performance of individual providers
- ✓ Identify both clinical and financial variation and how to eliminate both
- ✓ Easily track monthly or annual key performance indicators
- ✓ Understand and identify a provider index to objectively measure engagement, performance and outcomes
- ✓ Effectively monitor performance with alternate payment models like bundled payments

Transform your healthcare organization with easy to understand analytics, offering rich insights into opportunities to improve clinical outcomes and financial performance.

Cost-effective, affordable and easy to use, Dynafios 4CAST™ gives decision-makers the information needed to enhance the delivery of care while reducing costs.
