

Introducing The 21st Century Digital Family Album

Completely FREE with Unlimited Secure Cloud Storage

Available on smartphones, tablets and the Web

Free photo backups to your smartphone or tablet

Easily manage thousands of photos and stories

Create and Share Video Albums with Voice Stories

Mom and Dads First Date
Ken Leonard

Tag photos and collaboratively tell stories – in voice and text

Collaborate on albums to share with the whole family

Create and share video albums with voice and text

Tell Stories Together – At home or Over the Phone

Bring photos to life with storytelling

Record and preserve conversations while browsing through old photos together – Anywhere, anytime

Voice-to-text conversion makes stories searchable

Import Photos from Anywhere: Phone, Computer, FamilySearch, Facebook

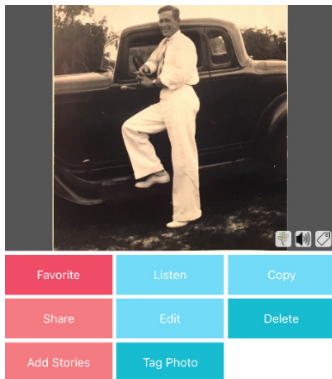

Plus, a built-in Hi-Res scanner:

Capture beautiful images at full 600 ppi

Easily scan up to 800 Photos / Hour

Permanently Embeds Searchable Tags & Voice Stories

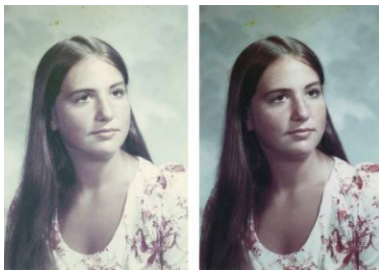

Voice tagging embeds searchable EXIF and IPTC metadata

Also embeds links to Voice and Video

Correctly formats shared files to prevent loss of tags

Restore, Enhance and Edit Photos

Provides easy 1-click improvements

Easy-to-use sliders to fix faded photos

Also works for making old documents more legible

Peace of Mind with the Optional FamilyArchive™ Kit

Automatic off-line backups of everything in your account

Advanced technology guarantees over 50 years of data life

Only \$40 including storage system, unlimited automatic updates, backup software and free shipping
