

Field Nimble

POWERED BY  POINTMAN

Field Nimble is **field service management** software and mobile app. It enables field technicians and office staff to communicate in real-time for scheduling, job alerts, field invoicing, payment processing and more!

- **Paperless Invoicing** – Paperless proposals & invoices equal immediate payment and better cash flow.
- **Customer History** – Techs see customer, service, & equipment records; giving them more selling opportunities
- **Get Paid Faster** – Payments as soon as the next day
- **Easy Onboarding** – Most customers are using Field Nimble for scheduling & invoicing in under 3 days.

The content for the Top 20 report is derived from independent research and user testing; end-user reviews and ratings; and vendor-supplied and publicly available product and company information that is applied against a documented methodology. The results do not constitute an endorsement by Gartner or any of its affiliates.
