

Novaerus to Host Expert Webinar with Dr. Werner Bischoff on Flu Prevention in Schools

Schools will learn proven strategies for preventing the spread of flu from expert in infectious disease, Dr. Werner Bischoff from the Wake Forest School of Medicine.

Seattle, Wash., March 13, 2017 – The 2018 flu season has been the worst in decades, impacting the health and attendance of students and staff at schools around the world.

In an effort to help schools be better informed and better prepared to prevent the spread of flu in the future, Novaerus is proud to host a live webinar featuring Dr. Werner Bischoff, associate professor of infectious diseases at Wake Forest University School of Medicine.

During the live webinar, Dr. Bischoff will explain why the influenza virus is so deadly, how the influenza virus spreads, and outline proven strategies to prevent the flu from spreading in a school environment. Dr. Bischoff will also take questions from the audience.

The webinar will take place on Wednesday, March 21 at 3 p.m. EST. Enrollment is free, but spaces are limited.

Registration for *Proven Strategies to Prevent the Flu from Spreading at Your School* is open online now at <https://register.gotowebinar.com/register/721102995369506818>.
