The Power of Data...*Realized*

## Dynafios TRACE Physician Compliance App

Dynafios TRACE helps healthcare organizations:

- ✓ Monitor physician participation in real-time
- ✓ Generate automated email reminders to physicians to enter time, safeguarding against duplicate entries
- ✓ Quickly submit digital logs with a legally binding electronic signatures
- ✓ Create invoices and accelerate the physician payment process
- ✓ Easily manage agreements and provide complete transparency with just one software application
- ✓ View comprehensive reporting online, including physician, practice and program reports for specific user-defined time frames
- ✓ Mitigate risk and ensure physician contract compliance from inception to adjudication

***Convenient & Compliant  
Physician Contract Tool***

## Ensuring compliance with physician contracts

**For the Physician:** TRACE is an easy to use mobile timekeeping app that elevates compliance with every agreement. By typing or dictation, entering time takes just seconds, and logs are stored and synched in the cloud. Automated reminders ensure logs are submitted on time. Plus, get complete visibility into the submittal workflow.

**For the Healthcare Organization:** TRACE provides a simple dashboard to customize specific time-valued physician services. Contract and financial managers receive automated reminders to review and approve physician logs. TRACE offers online tracking throughout the digital workflow and reduces compliance risk by providing a complete audit trail.
