DUNMORE Receives Gold Level Performance Excellence Award From Boeing

DUNMORE awarded Gold Level Boeing Performance Excellence Award for 2017. This award is given to top-performing key suppliers.

Bristol, PA, March 29, 2018 - DUNMORE today announced that it has received a 2017 Boeing Performance Excellence Award. The Boeing Company issues the award annually to recognize suppliers who have achieved superior performance. DUNMORE maintained a Gold composite performance rating for each month of the 12-month performance period, from October 2016 to September 2017.

The Gold Level Boeing Performance Excellence Award designation was received by only 72 companies the prior year. With over 13,000 suppliers from 47 countries servicing Boeing, it is a great privilege for DUNMORE to be acknowledged as a key supplier.

DUNMORE, a leading manufacturer of thin film products, supplies Boeing with a number of films and film laminates for both aircraft and space applications (<https://www.dunmore.com/industries/aerospace.html>).

"Boeing is a leader in aerospace technology and one of the most prominent companies in the world. We take it as a great compliment that they have presented our team with this award for excellence," said Art Mallett, Jr. Director, Global Aerospace for DUNMORE Aerospace. "This award represents our team's resolute focus on high quality and on-time delivery for our customer Boeing."

DUNMORE has been supplying decorative film and protective film (<https://www.dunmore.com/products/aircraft-interior.html>) products to the aerospace industry for decades. Many of the world's largest aircraft companies use DUNMORE films and laminates for thermal acoustic insulation and protection of cabin interiors. DUNMORE's multi layer insulation films are also a fixture in space exploration, protecting spacecraft structures and sensitive instruments from the harsh environment of space.

About DUNMORE

DUNMORE is a global supplier of engineered coated and laminated films and foils. DUNMORE offers film conversion services such as coating, metalizing and laminating along with contract film manufacturing. DUNMORE produces coated film, metallized film and laminating film substrates for the aerospace, packaging, photovoltaic, graphic arts, insulation, and surfacing industries. DUNMORE is ISO 9001:2008 and OSHA VPP Star certified. For complete information on DUNMORE's products, services and industries served, please visit DUNMORE's website: <https://www.dunmore.com>.
