

ADHERENCE CARD FILLING MADE SIMPLE

SmartCardRx™ is a unique, patented fill-to-light technology guiding technician to fill correct medications and quantity in each cell. This revolutionary software packaging solution provides:

✓ **Improved efficiency and accuracy of card filling**

- Fill cards with "light-guided" technology
- Ability to fill weekly, bi-monthly and monthly supply, filling 1 to 4 patients at a time

✓ **Barcode-verified system increases accuracy and reduces labor**

- Correct medication and strength
- For the right patient
- Filled in the right pocket

✓ **Wide range of compatibility**

- Monthly book-style
- Weekly book-style
- Weekly hanging-style
- QUBE 31-day

LED lights on-screen and below card direct user to fill each pocket accurately and efficiently

Clear covers protect filled orders during stacking/quarantine awaiting RPh check

SmartCardRx includes:

- Interactive touch screen monitor
- 4-card lighted tray system
- Main trays, blister trays, and covers
- Barcode and biometric scanners
- Sealing station with roller
- Laser jet printer
- 2-bay workstation

ADHERECARD™ BY TCGRX

- 4-pass time, 7-day multi-med cold-seal blister cards
- Larger pockets for morning and bedtime medications
- Easy-to-seal cards using TCGRx sealing station prevents wrinkling or misalignment of adhesive
- Customizable days of the week
- Include fields that are required — NDC, brand name, generic name, prescribing physician, dosage, quantity, strength and more
- Card cover can include pharmacy logo, address, phone number, patient name, and more
- Color-coded pass time bars, and medication fields
- Perforated pockets make taking medication on the go easier than ever — never miss a dose

ADDITIONAL SUPPORTED FORMATS

- FlexRx available in both standard and hanging tab weekly formats
- QUBE 31 monthly book-style in tri-fold designed to hold multiple medications for a 31-day supply
